P.O. BOX 26931 MILWAUKEE, WISCONSIN 53226 414-462-3399

JANURARY 20TH, 2024

Dear Friends of the Preborn,

Planned Parenthood continues to murder preborn babies here in Wisconsin and Wisconsin's government officials continue to do nothing to stop them – even though Wisconsin law declares abortion to be illegal under our homicide statutes.

Around the nation things are bad.

About half the states allow the slaughter of the preborn for any reason or no reason at all. Many of the “pro-life” states have exceptions so the slaughter continues – and even the handful of states that have outlawed it all fail to criminalize the woman for murdering her own son or daughter. This is a huge loophole established by the pro-life movement itself wherein thousands continue to be slaughtered in every state in America.

Our nation's hands are covered with blood – and God's judgment upon us is just.

Meanwhile those who actually interpose on their behalf are treated by our federal government as the worst of criminals [see the enclosed article].

We need to put our faces down to the ground and cry out to the Lord. We must call the people of our nation and the civil authorities to repentance. We need to demonstrate repentance in our own lives. May our hearts be broken – and may we boldly declare His law, Word, and great salvation. Thank you for your support of our efforts as it is needed for our efforts.

Donna Holman is with our Lord

On November 3rd, 2023, Donna Holman crossed over the river at age 88 and is with our Lord.

She was a faithful servant of Christ and a tireless warrior for the preborn. She was a lit-dropping machine at our efforts on the streets and at the universities. She wrote hundreds of letters to the editor for newspapers.

The preborn have lost a champion. Please remember her husband – Dan Holman – in prayer as he is poor health.
