SEPTEMBER 30TH, 2024

Dear Friends of the Preborn,

There are ten states voting on constitutional amendments in order to murder the preborn this November election. The ten states are- *Arizona, Colorado, Florida, Maryland, Missouri, Montana, Nebraska, Nevada, New York, and South Dakota.*

Florida has the best chance of defeating the evil measure as 60% of the people must vote for it. The other nine states only need 50% to pass it.

This is the mob voting to murder who they want to kill.

We are no longer a Republic which understands the importance of the rule of law. Rather, we are a lawless democracy where the majority can make up law or policy or court opinion out of thin air. *Where evil is now good – and good is evil.*

Nebraska is in the worst predicament of all. There are two measures there.

One from the pro-choice crowd that wants to murder the preborn – and the other from the pro-life crowd that wants to murder the preborn. Yes, you read that right.

We hope you take time to visit the website of the organization in Nebraska that is fighting against both measures. Their website is NOtoBOTH.org. Look at what is written there – it is excellent. Consider supporting their effort to defeat both of these bills. We have been doing what we can from here in Wisconsin to help their fight against this evil effort in Nebraska.

Two states – Michigan and Ohio – *both* passed these constitutional amendments to murder the preborn. The American people are voting to murder their own sons and daughters. They are voting to bring the just judgment of God upon their heads due to all the innocent blood.

We live in a wicked nation with a compromised Christianity. Let us draw close to Christ and do right by Him. Let us do right by our neighbor.

May Christ be praised!
